<https://www.linkedin.com/in/antonioreyesphx/> | <https://github.com/golden-state0fmind>

Technical Skills

Languages

HTML, CSS, JavaScript, Python

Libraries and Frameworks

React, React-Native, Node, Express, Flask, Bootstrap, Next.js

Database

PostgreSQL, Sequelize, SQL/noSQL, Firebase, Azure

Other

RESTful API, Git, GitHub, ES6, JSON, AJAX, Data Structures, Object-Oriented, Async Programming

Professional Experience

Mobile Developer Intern

GETCities 

08/2021 – present | Remote, USA

- Developing mobile application using functional components and hooks in React Native.
- Collaborating with UX/UI team to translate Figma designs to build a user-friendly application.
- Creating server and API's with Express and Node.js while using PostgreSQL to manage and protect data.
- Building mobile application from conception to a finished product.

Full Stack Software Engineer

Make It MVP 

06/2021 – present | Remote, USA

- Developing front-end mobile app architecture with components and hooks in React Native and JavaScript.
- Creating server less database in Google Cloud Firebase/Firestore for managing and protecting data.
- Designing, building, and maintaining mobile app and software application from conception to a finished product.

Bartender

Waldorf Astoria

02/2018 – 12/2020 | Phoenix, AZ

- Addressed guests in a timely manner while preparing cocktails per Forbes standard to guarantee guest metric scores exceeding 80%.
- Collected data on liquor sales to enhance menus and facilitated inventory on a daily and monthly basis with directors.

Projects

Namaste-goodvibes

JavaScript, React, Next.js, Vercel, MaterialUI, Firebase

04/2021 – 06/2021

This snappy website is intended to advocate wellness by promoting healthy food recipes, motivational quotes and ways to stay fit.

- Cloud Firebase integration, noSQL queries in Firestore.
- Design and develop pages while handling information architecture.

Virtual-Glovebox

ReactNative, JavaScript, Node, Jest, TailwindCSS, Firebase, Expo

02/2021 – 04/2021

A continuation from a hackathon I joined with two developers and two UX/UI designers. Our goal is to take this project to the iOS store and eliminate paperwork bureaucracy.

- Constructs Firestore database queries.
- Writes tests with Jest and React-Native testing library.
- Developed maintenance screen workflow.

Pet Pals

JavaScript, PostgreSQL/Sequelize, Express, React, Node, React-Bootstrap, HTML/CSS, Azure

12/2020 – 12/2020

Designed a social media application for pet owners with two other developers. Building a community of animal lovers to connect online.

- Built API calls through axios from Cloudinary to the database.
- As a capstone project I took this project and deployed to Microsofts Azure's services. Experience with Azure's SQL cloud migration CI/CD through GitHub actions and hosted through Azure App Services.

Education

Software Engineering Immersive

General Assembly

12/2020 | Remote

- Full-stack software engineering immersive student in an intensive, twelve-week, 450+ hour program focused on product development fundamentals, object-oriented programming, scoping, callbacks, event looping, IIFE, MVC frameworks, data modeling, and team collaboration strategies. Developed a portfolio of individual and group projects.

AAS Computer and Information Technology

Paradise Valley Community College

01/2020 | Paradise Valley, AZ

- computer science courses
